#### Please initial each line:

Office appointments cancelled with less than 24 hrs notice are subject to a \$25 cancellation fee, and procedure cancellations without 5 business days' notice are subject to a \$50 cancellation fee. Cancellation and No Show fees are the sole responsibility of the patient and must be paid in full before the patient's next appointment. Fees may be waived by management approval only.

\_\_\_\_\_\_ As a courtesy, Las Vegas Urology verifies benefits with your insurance company. A quote of benefits is not a guarantee of coverage or payment. Payment for services, including telemedicine visits, is due at the time of service unless other financial arrangements are made in advance. You are responsible for all charges incurred. We highly recommend you contact your insurance carrier and verify your plan benefits.

This form must be completed in order for us to bill your insurance. Failure to do so will mean that you are responsible for all insurance billing. Assignment of insurance benefits: I herby authorize my insurance company to pay directly to the doctor the amount due on my claim for services rendered to my dependent or me. Payment for copays and deductibles are required at the time services are rendered. I further agree that should the amount be insufficient to cover the entire medical and/or surgical expense, I will be responsible for payment of the difference; and if the nature of the disability were such that it is not covered by the policy, I will be responsible to the doctor for payment of the entire bill.

#### Patient Record of Disclosures and Authorization for the Release of Protected Health Information

In general, the HIPPA privacy rule gives individuals the right to request a restriction on uses and disclosures of their protected health informant (PHI). The individual is also provided the right to request confidential communication or that a communication of PHI may be by alternative means, such as sending correspondence to the individual's office instead of the individual's home.

- 1. The privacy rule generally requires healthcare providers to take reasonable steps to limit the use of disclosure of and requests for PHI to the minimum necessary to accomplish the intended purpose. The provisions do not apply to uses or disclosures made pursuant to an authorization request by the individual.
- 2. Healthcare entities must keep records of PHI disclosures. Information provided below, if completed properly, will constitute an adequate record.
- 3. Uses and disclosures for TYP (Treatment, Payment or Operations) may be permitted without prior consent in an emergency.

This form authorizes the release of Protected health Information pursuant to 45 CFR Parts 106 and 164.

- 1. The undersigned authorizes the providers of Las Vegas Urology to release contents of medical records to my insurance company for purposes of billing and collecting as requested. The undersigned acknowledges that without this authorization, Las Vegas Urology may be unable to bill and collect from patient's insurance company.
- 2. The information may be disclosed by employees or business associates of Las Vegas Urology.
- 3. The medical record information may also be disclosed to \_\_\_\_\_\_. (Insert name of person or people to whom the medical information may also be disclosed.)
- 4. I acknowledge that I have the right to revoke authorization at any time, and I understand that once the information is disclosed it may no longer be protected by Federal Privacy Law.

This authorization will remain in effect until terminated in writing by the undersigned patient.

You may revoke this authorization only in writing sent by Certified Mail to Las Vegas Urology. The revocation will be effective only upon receipt, except (1) to the extent that Las Vegas Urology has acted in reliance on the authorization, or (2) the authorization was obtained as a condition of obtaining insurance coverage and the insurer wishes to use the protected health information to lawfully contest the claim.

A Brief Look at Arbitration for the Patient

# Introduction

Arbitration is an alternative dispute resolution procedure that has been endorsed by such groups as the California Medical Association and noted to be a favored method of resolving disputes by the United States Supreme Court. If you are unfamiliar with arbitration in general, the information included here provides some of the basic principles of arbitration.

# What is arbitration?

Arbitration is an alternative way of resolving disputes. Instead of taking your disagreement through the long and expensive process of court litigation, you and the doctor agree in advance to submit any disputes to an arbitrator for his or her determination. The arbitrator is selected from among the numerous retired judges who are available and qualified to serve on these matters and is mutually agreed upon by both you and the doctor. After a hearing, which is usually less formal than a court proceeding, the arbitrator makes the decision ("award"). Although the procedures are different, generally the same laws and same measure of damages which apply in court proceedings also apply in arbitration.

# Does arbitration prevent you from making a claim?

No. By selecting arbitration as the means to resolve a disagreement, all you are essentially doing is moving the claim to a different forum (i.e., from a jury to an arbitrator) to hear and ultimately decide your claim.

# Does it prevent you from obtaining a financial award?

No, arbitration does not restrict or prevent you from obtaining a financial award in any manner. If the arbitrator accepts and agrees with your claim, he or she will determine a damage award. The United States Supreme Court has, in fact, previously held that arbitration is strongly favored as an expeditious and economical alternative to the court system.

## May I be represented by an attorney of my choice?

Yes. Any party to arbitration may be represented by an attorney of his or her choice, at his or her own expense. The arbitrator will hear the facts and decide the matter whether or not the parties are represented by lawyers.

## Who is bound by this agreement?

If you chose to sign the arbitration agreement, you will be agreeing to bind yourself and anyone who could bring suit in connection with treatment or services provided to you by the doctor. If you sign on behalf of a family member or some other person for whom you have responsibility, you will bind that person as well as anyone who could sue in connection with treatment or services provided to that person by the doctor. likewise, the doctor or anyone suing on behalf of a doctor, is bound.

## What does arbitration cost?

In general, arbitration is less expensive than court actions. The arbitrator's fees are ordinarily shared equally by the parties. The amount of those fees will depend upon the complexity and length of the case.

## If either party does not like the arbitration result, could there still be a jury trial in court?

Generally, the answer is "No." The whole purpose of arbitration is to avoid the expense, delay and inconvenience of going to court. Arbitration awards may be reviewed, and potentially reversed ("Vacated") by a court in limited circumstances.

## A Message to Our Patients About Arbitration

The attached contract is an arbitration agreement. By signing this agreement, we are agreeing that any dispute arising out of the medical services you receive is to be resolved in binding arbitration rather than a suit in court. Lawsuits are something that no one anticipates, and everyone hopes to avoid. We believe that the method of resolving disputes by arbitration is one of the fairest systems for both patients and physicians. Arbitration agreements between health care providers and their patients have long been recognized and approved by the courts. By signing this agreement, you are changing the place where your claim will be presented. You may still call witnesses and present evidence. Each party selects an arbitrator (party arbitrators) who then select a third, neutral arbitrator. These three arbitrators hear the case. This agreement generally helps to limit the legal costs for both patients and physicians. Further, both parties are spared some of the rigors of trial and the publicity that may accompany judicial proceedings. Our goal, of course, is to provide medical care in such a way as to avoid any such dispute. We know that most problems begin with communication. Therefore, if you have any questions about your care, please ask us.

Please let the front desk staff know if you would like a copy of this document.
